

ECOLOGY

The durability of a high quality LEICHT kitchen is a decisive criterion for products which protect the environment. The use of ecologically safe and sustainable materials is a further aspect of conscientious thinking.

Water based lacquering on a substantial part of surfaces. Wood from (PEFC-certificates). The use of reusable packaging. Reducing the waste diversity for simpler recycling. Certificates for a simpler waste recycling. LEICHT kitchens carry the certificates of the Safety Seal “Healthy Living” of the German Test Institute for furniture.
